For Immediate Release

Infiltrator Acquires Blue Diamond Corrugated Pipe

Old Saybrook, Conn. (May 2010) – [Infiltrator® Systems](http://www.infiltratorsystems.net) announced today that it has acquired the Corrugated Plastic Pipe Division of Blue Diamond Industries (“Blue Diamond Corrugated”). This move will enable Infiltrator Systems to supply its regional EZflow plants with high-density polyethylene (HDPE) corrugated pipe, a key component to its EZflow line of bundled synthetic aggregate products for septic and drainage applications. In addition, Infiltrator will continue to service Blue Diamond Corrugated’s existing customers in the Southeastern US. Blue Diamond Corrugated will be rebranded as Blue Diamond Corrugated by Infiltrator and will be available in the areas surrounding their Oneonta, AL and Roseboro, NC plants.

Blue Diamond Corrugated is known for its high quality products and superior customer service. Blue Diamond Corrugated pipe products are manufactured to meet or exceed the requirements of the American Society for Testing & Materials (ASTM), the Soil Conservation Service (SCS), and American Association of State Highway and Transportation Officials (AASHTO).

Blue Diamond Corrugated products include:

- Corr-A-Flex™ Single Wall Drainage Pipe
- Corr-A-Flow™ Dual Wall Drainage Pipe
- Corr-A-Guard™ Gravelless Septic Pipe Product
- Corr-A-Shield™ Protective Edging
- Corrugated Pipe Fittings

Based in Old Saybrook, Connecticut, Infiltrator has continually introduced innovative products that meet increasingly stringent environmental and regulatory requirements. The company's integrated solutions continue to be a benchmark for superior performance in products and service within the onsite wastewater treatment industry. The company's full line of environmentally conscious products include Infiltrator Quick4 and Quick4 Plus plastic septic leachfield chambers, TW™-Series septic tanks, EZflow™ by Infiltrator Drainfield System, EZset™ by Infiltrator septic tank risers and lids, and Aquaworx™ by Infiltrator advanced treatment technologies.
